Technology Employee Engagement Manager

CoverMyMeds *Columbus, OH* 2026 – Present

- **Events Strategy and Execution**: Responsible for design and execution of employee engagement events, including internal conferences and hackathons, for over 850 people.
- **Leadership Communication Strategy**: Voice of CTO and Tech Leadership Team, managing content and channels for Town Halls, Newsletters, and other team communication.
- **Engagement Strategy**: Representing Tech team needs to leadership through analysis of engagement surveys, leading focus groups, and an ear to the ground. Cultivating L&D, change, and culture initiatives.

Manager, Enablement & Change Management

CoverMyMeds *Columbus, OH* 2021 – 2026

- Pitched and founded Center of Excellence to company leadership to solve disconnection and inefficiency between distributed, decentralized teams
- Facilitated strategic planning efforts for the enterprise analytics SLT, aligning data priorities with business objectives and advancing organizational data maturity
- Launched data governance program and led change efforts to drive adoption across all analytics teams, enabling knowledge centralization, stakeholder literacy, data discovery, and data flow clarity

Internal Conference: Launched an annual change event for 300+ attendees, managing all elements including strategic planning, budget management, and day-of logistics

- Coordinated 40+ sessions with internal and external speakers, fostered with a custom speaker coaching program and presentation templates to ensure content quality
- Brought together data teams who'd never met after company mergers, breaking down silos and creating lasting cross-team collaborations
- Designed "Analytics Week as an experience" – from custom swag and branded spaces to surprise comedy shows and happy hours that people still talk about
- Solved the hybrid challenge by making virtual attendees feel like first-class participants
- Transformed a standard training week into an event people plan their year around

Culture Transformation: Partnered with senior leadership to design experiences that reinforced company values and support organizational change during mergers and reorganizations

Chief of Staff, VP of Analytics: Facilitated critical SLT planning and communications

- Developed and ran workshops to strategize around employee engagement survey results, employing Innovation Engineering tactics to design tangible solutions for our people
- Planned communications and executed Town Halls and other Analytics Leadership events
